DETAILED ACTION

The following is a response to the amendment received on December 6, 2004 which has been entered.

Response to Amendment

Claims 1-5 are pending in the application.

-The 112 2nd rejection of claims 1-5 has been withdrawn due to applicant correcting antecedent basis problems some limitations in these claims.

Allowable Subject Matter

Claims 1-5 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claim 1) a method of controlling torque transferred across two clutches of a dual clutch transmission by simultaneously controlling torque of both clutches so torque of a first clutch linearly decreases while torque of a second clutch linearly increases in an inverse proportion rate according to a desired clutch torque and slip profile and cause the engine to track a target engine speed profile and continuously varying pressure applied to the first clutch to cause the engine to continue tracking the target engine speed profile to maintain vehicle acceleration in combination with all the remaining limitations of claim 1.

-(as to claim 5) a method of controlling torque transferred across two clutches of a dual clutch transmission by simultaneously controlling torque of both clutches so torque of a first clutch linearly decreases while torque of a second clutch linearly

increases in an inverse proportion rate according to a desired clutch torque and slip profile and cause the engine to track a target engine speed profile and determining a first time period for engine speed increase, determining a second time period for torque transfer change from the first to second clutch and a third time period for torque transfer change from the second to first clutch in combination with all the remaining limitations of claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
